HYBRID CASEMENT

ECOVERTE
DOORS & WINDOWS

The PVC/aluminum combination is hard to beat for strength, performance and the range of colours that can be applied. It offers excellent value for money.

With exterior aluminum cladding applied over a PVC frame, the OMNI Hybrid series combines the thermal performance of our all-PVC models with the proven qualities of extruded metal, while providing maximum rigidity and durability.

EXPRESSIONS HANDLE

ASHLAND HARDWARE SYSTEMS

OPTIONS

- 5 5/8" or 4 1/2" frame
- Choice of energy-efficient double or triple glazing
- Exceptional finish highly resistant to fading
- Stainless-steel opening/closing mechanism
- Grilles and muntins integrated into the glazing
- Interior extension in PVC-covered pine or #1 clear, non-finger-jointed pine
- Universal brickmould with cavity for exterior house cladding

INTERCEPT ULTRA SPACER

When comparing options on the market, Intercept® ULTRA offers an excellent combination of durability and rigidity for your windows.

SOL-R® GAIN 180

· Good insulation
· Optimal solar gain
· Blocks 76% of UV rays

SOL-R® PLUS 366

· Best insulation
· Excellent solar control
· Blocks 95% of UV rays

ANODIZED

HYBRID ALUMINUM

FEATURES:

- Contemporary aluminum sash
- All-PVC window construction with fusion-welded corners for improved sealing and efficiency
- One-piece frame, 5 5/8" or 4 1/2" deep, without brickmould
- Fully welded sash and frame
- Double-strength Low-E glass with Argon
- Glazing with a black co-extruded sealing gasket for better fade resistance and appearance
- Intercept® ULTRA insulating spacer system
- Triple weatherstripping on the sash for optimal air and water tightness
- Multi-air-chamber PVC profiles made from powdered PVC compound for a glossy finish

CUSTOM COLOURS

· White PVC or Aluminum Extrusions (20 years)

A 20-year warranty applies against manufacturing or material defects on exterior polyvinyl chloride and extruded aluminum components under normal use and maintenance conditions. A 10-year warranty applies against non-uniform discoloration provided the components are exposed uniformly to sunlight and natural elements.

· Paint - PVC or Aluminum Windows (10-year prorated)

A 10-year warranty, prorated by 10% per year, applies against peeling, cracking, blistering and non-uniform paint discoloration (no more than 5 delta units).

· Sealed Glass Warranty (20 years)

Sealed units installed in windows are warranted for 20 years for Low-E Argon glass and 10 years for clear glass against film or dust deposits forming between the panes when caused by seal failure and when they appreciably obstruct visibility. The 20-year sealed-unit warranty is limited to 3 mm Low-E Argon glass. Triple glazing, 4-5-6 mm glass, special shapes, tempered glass and units with non-standard grilles are limited to 10 years.

· Spontaneous / Thermal Glass Breakage (1 year)

A one-year warranty applies against spontaneous breakage. The break must occur on the interior side of the sealed unit and there must be no impact point.

· Hardware and Weatherstripping (lifetime / 10 years)

A lifetime warranty applies to ASHLAND hardware components, and a 10-year warranty applies to weatherstripping incorporated into the products, against manufacturing defects that make them unusable under normal operating conditions.

· Screens (1 year)

A one-year warranty applies to screen frames against manufacturing defects attributable to materials. It does not cover mesh that has been torn or punctured or screen frames deformed by force. Labour is covered by a limited one-year warranty.

· White Steel Door Panels (10 years)

A 10-year warranty applies against material defects such as corrosion, chalking, swelling and major discoloration, as well as manufacturing defects.

· Fiberglass Door Panels (lifetime)

A lifetime warranty applies against material defects such as warping or cracking and against manufacturing defects.

· Door Paint (10-year prorated)

A 10-year warranty, prorated by 10% per year, applies against peeling, cracking, blistering and non-uniform paint discoloration (no more than 5 delta units).

· Handles (10 years - lifetime)

A lifetime warranty applies to the mechanism and a 10-year warranty applies to the finish. A one-year warranty applies to digital deadbolt mechanisms. This warranty does not cover scratches or abrasions. Lock installation is warranted for 30 days.

· Door Sealed Units (5-10 years)

Decorative glass, silk-screened glass, grooved glass, clear glass and guillotine units are warranted for 10 years against film or dust deposits between the two panes caused by seal failure. Sealed units with integrated blinds are warranted for 5 years. Refer to the warranty of the applicable supplier, such as Vitre-Art, Verre-Select, Novatech, etc.

· PVC Moldings / Decorative Glass Frames (5 years)

A five-year warranty applies to unpainted PVC moldings used to retain sealed glass units in steel doors against separation, excessive waviness, yellowing and cracking.

· Procedure

Any product found defective under this warranty will be repaired or replaced. The warranty applies only to the replacement or repair of defective parts manufactured by Fabricant Fenêtres EcoVerte Inc. Parts will be replaced with similar products; no other claim is accepted under this warranty. Any repaired or exchanged part is warranted for the remaining period of the original warranty. During the first year, Fabricant Fenêtres EcoVerte Inc. will cover labour for replacement or repair of manufacturing or material defects if the products were installed according to accepted trade practices, square and plumb. In subsequent years, replacement parts covered by warranty will be supplied at no charge.

· Installation (5 years)

Applies to products installed by Fabricant Fenêtres EcoVerte Inc. according to accepted trade practices, square and plumb.

· Conditions

The warranty does not apply to routine maintenance work, replacement of normal maintenance parts, damaged screens, or surface frost and condensation caused by excessive humidity.
